Assignment- 04

Sustainability Complaint Request Form — Basic Fields Use Case in Zoho Creator

Name:	Kanishka S
REG NO:	240701227
Course:	CB23F35 – Low-Code Application Development using Zoho Creator
Department:	Computer Science and Engineering
Application:	Smart Campus Sustainability & Carbon Tracker

AIM

To design and build a functional "Sustainability Complaint Request" form inside the **Smart Campus Sustainability & Carbon Tracker** application in Zoho Creator that demonstrates the correct use of all thirteen Basic Fields available in the Form Builder, and solves a real campus requirement of collecting and pre-processing sustainability complaints (energy, water and waste issues) from students and staff through a structured **Sustainability_Complaint_Form** and an auto-generated **Sustainability_Complaint_Report**.

PROCEDURE

1. Application and Form Creation

- Logged into Zoho Creator and opened the existing application **Smart Campus Sustainability & Carbon Tracker** in Edit mode.
- Inside the application, opened the Form Builder and created the form **Sustainability_Complaint_Form**.
- The form was designed to capture reporter identity, contact details, the complaint category, date of observation, estimated wastage, resources affected, a description and a declaration of authenticity.
- Zoho Creator automatically generated a linked report, **Sustainability_Complaint_Report**, for viewing, filtering and managing the submitted complaints.

2. Drag-and-Drop of Basic Fields

The Basic Fields palette was expanded on the left panel. All thirteen fields were dragged onto the form canvas and configured through the Field Properties panel.

Basic Field	Field Name	Configuration
Name	Reporter_Name	First Name and Last Name enabled; marked Mandatory.
Email	Email_Address	Built-in e-mail format validation enabled; marked Mandatory.
Address	Campus_Address	Address components (street, city, state, pincode) enabled.
Phone	Contact_Number	Country code format enabled for Indian numbers; marked Mandatory.
Single Line	Reporter_ID	Short free-text entry for the student / staff ID; marked Mandatory.
Multi Line	Complaint_Description	Free-text description of the sustainability issue observed on campus.
Number	Estimated_Wastage	Restricted to positive values (minimum 1); marked Mandatory. Holds kWh, litres or kg according to the category.

Basic Field	Field Name	Configuration
Date	Date_Of_Observation	Date picker; future dates disallowed; marked Mandatory.
Time	Preferred_Inspection_Time	Used to select the preferred time for the facility team to inspect the issue.
Drop Down	Complaint_Category	Single-select list: Water Leakage, Excess Electricity, Waste Overflow, Plastic Waste, Broken Lights, E-Waste, Other; marked Mandatory.
Radio	Reporter_Type	Mutually exclusive options: Student, Staff, Visitor; marked Mandatory.
Multi Select	Resources_Affected	One or more of Electricity, Water, Waste, Plastic, Lighting.
Checkbox	Declaration_Of_Authenticity	Declaration that the information is true and accurate; mandatory.

3. Form Sections

The Sustainability_Complaint_Form was organised into the following four sections:

Section A — Reporter Details

- Reporter Name (First Name, Last Name)
- Reporter Type (Radio: Student / Staff / Visitor)
- Reporter ID (Single Line)

Section B — Contact Details

- Email Address
- Contact Number
- Campus Address

Section C — Complaint Details

- Complaint Category (Drop Down)
- Date of Observation
- Estimated Wastage
- Resources Affected (Multi Select)
- Complaint Description (Multi Line)

Section D — Scheduling & Declaration

- Preferred Inspection Time
- “I declare that the information provided is true and accurate” (Checkbox)

4. Configuring Field Properties and Validations

- Marked Reporter Name, Reporter Type, Reporter ID, Email Address, Contact Number, Complaint Category, Date of Observation, Estimated Wastage and the Declaration checkbox as Mandatory.
- Enabled built-in e-mail format validation on the Email Address field.
- Enabled the country code format on the Contact Number field for Indian numbers.
- Restricted Estimated Wastage to positive values only (minimum 1).
- Restricted Date of Observation so that future dates are not allowed.

- Configured the Declaration checkbox as mandatory so the form cannot be submitted unless it is checked.
- Configured Reporter Type as a Radio field with a single mandatory selection and Resources Affected as a Multi Select field.

5. Workflow

1. The reporter (student or staff member) opens the form link shared inside the campus application.
2. The reporter fills in identity, contact, complaint and scheduling details across the four sections.
3. On clicking Submit, Zoho Creator validates all mandatory fields and formats.
4. A new record is created in the Sustainability_Complaint_Report.
5. The facility team reviews the report, filters by Complaint Category and Estimated Wastage, and assigns an inspection at the Preferred Inspection Time.

6. Submitting Sample Records and Reviewing the Report

Three sample complaints were submitted through the live form.

Sample Record 1

Reporter Name	Arjun Prakash
Reporter Type	Student
Reporter ID	STU-240701118
Email Address	arjun.p@example.com
Contact Number	+91 98400 11223
Campus Address	Block C Hostel, Rajalakshmi Engineering College, Thandalam, Chennai, Tamil Nadu, 602105
Complaint Category	Excess Electricity
Date of Observation	12-Oct-2026
Estimated Wastage	35
Resources Affected	Electricity, Lighting
Complaint Description	Corridor lights and fans in Block C stay switched on throughout the day, even when the rooms are empty.
Preferred Inspection Time	10:30 AM
Declaration	Checked (Agreed)

Sample Record 2

Reporter Name	Meena Lakshmi
Reporter Type	Staff
Reporter ID	EMP-4521
Email Address	meena.l@example.com
Contact Number	+91 93450 66778
Campus Address	Library Block, Rajalakshmi Engineering College, Thandalam, Chennai, Tamil Nadu, 602105
Complaint Category	Water Leakage

Date of Observation	14-Oct-2026
Estimated Wastage	600
Resources Affected	Water
Complaint Description	The overhead tank near the Library washroom overflows every morning and wastes water.
Preferred Inspection Time	11:00 AM
Declaration	Checked (Agreed)

Sample Record 3

Reporter Name	Karthik R
Reporter Type	Student
Reporter ID	STU-240701145
Email Address	karthik.r@example.com
Contact Number	+91 98765 43210
Campus Address	Canteen Block, Rajalakshmi Engineering College, Thandalam, Chennai, Tamil Nadu, 602105
Complaint Category	Waste Overflow
Date of Observation	18-Oct-2026
Estimated Wastage	40
Resources Affected	Waste, Plastic
Complaint Description	Canteen bins overflow with plastic and food waste by afternoon.
Preferred Inspection Time	3:00 PM
Declaration	Checked (Agreed)

After submission, the Sustainability_Complaint_Report was opened in list view and all three records were verified. An individual record was opened to confirm that every entered value was stored correctly. Validations were also tested by attempting to submit with the declaration unchecked and with a future observation date; both were rejected.

OUTPUT

The following screenshots represent the completed application:

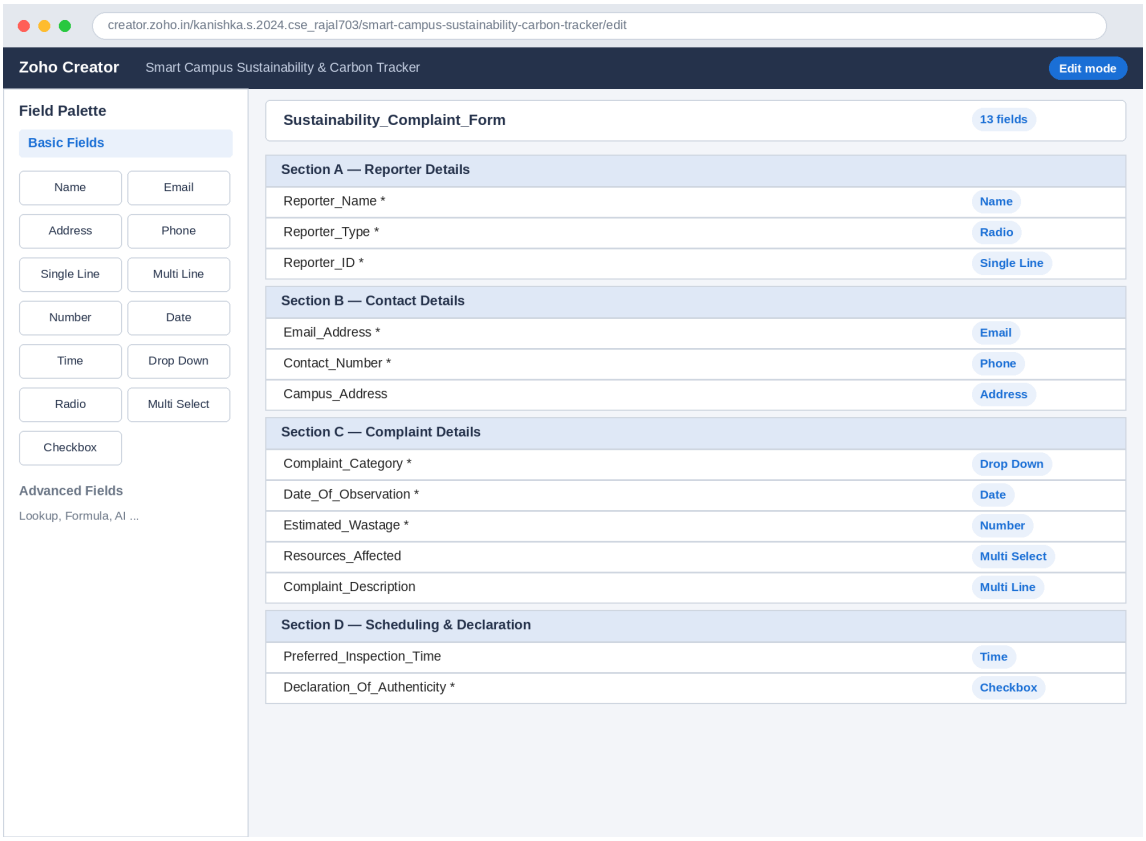

Fig 1. Sustainability_Complaint_Form in the Form Builder showing all thirteen Basic Fields arranged in Sections A to D (illustration).

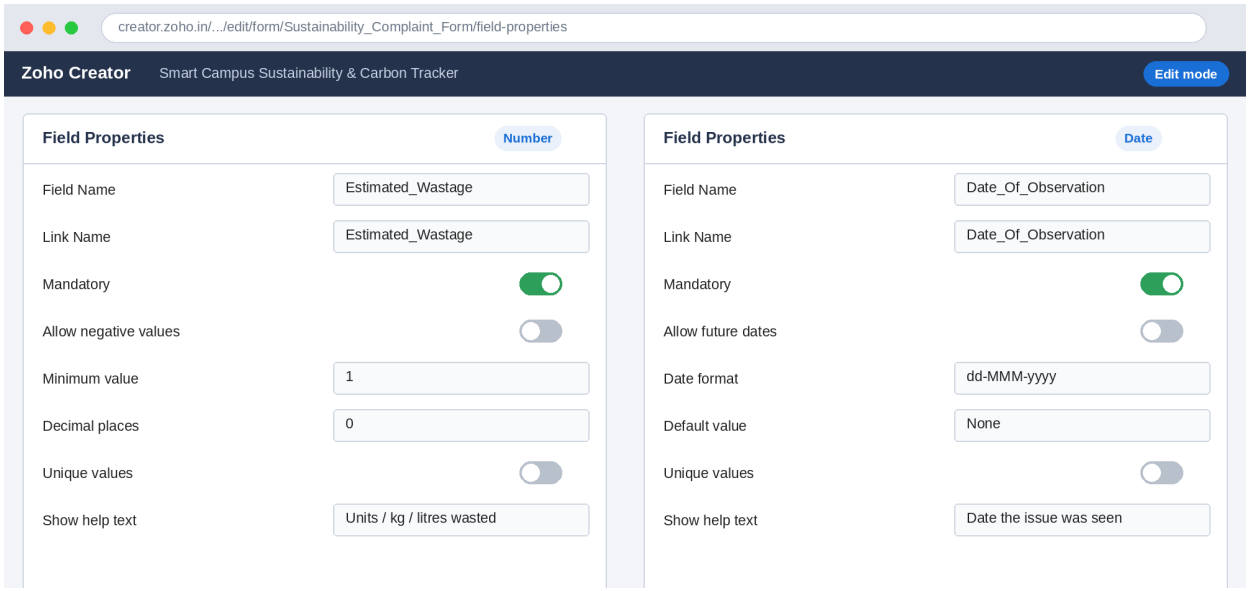

Fig 2. Field Properties panel showing the mandatory and validation settings for Estimated_Wastage and Date_Of_Observation (illustration).

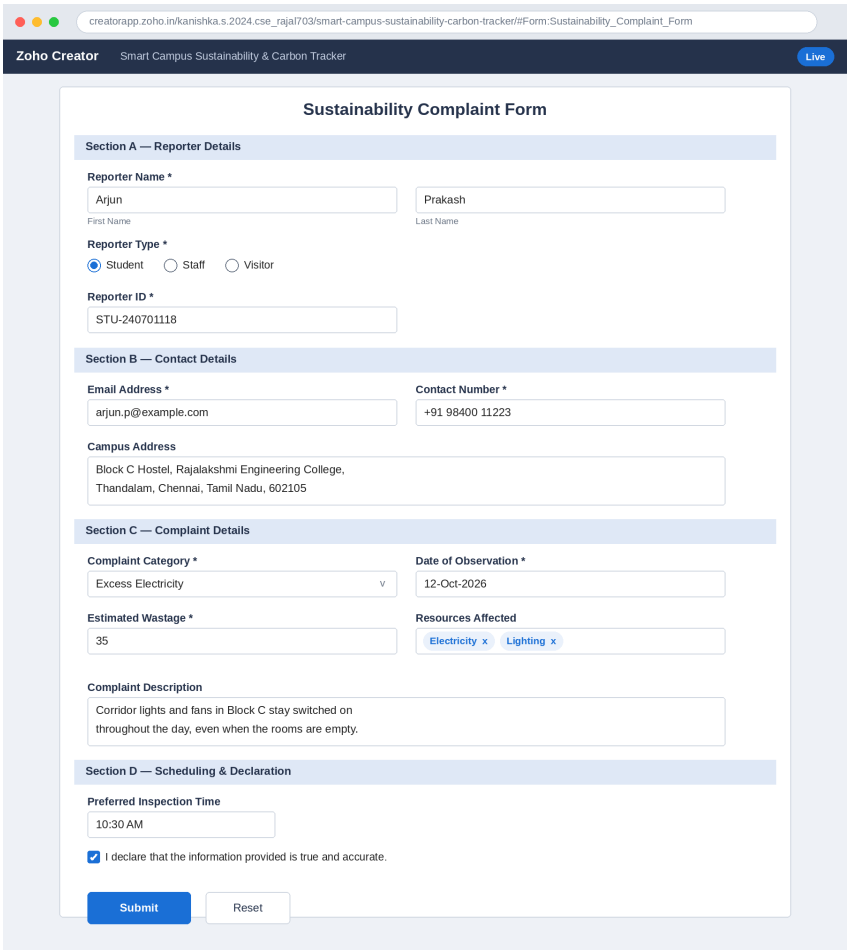

Fig 3. Live preview of the Sustainability_Complaint_Form with Sample Record 1 entered (illustration).

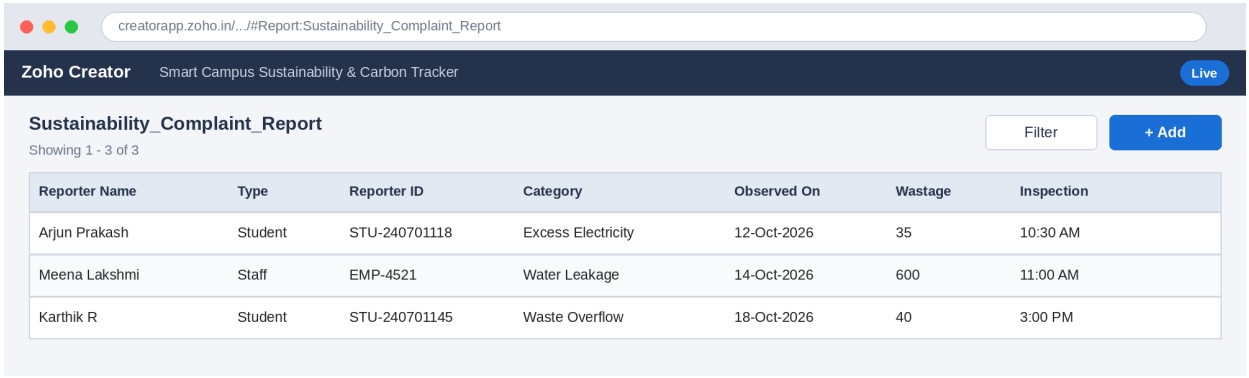

Fig 4. Sustainability_Complaint_Report in list view displaying the three submitted complaints (illustration).

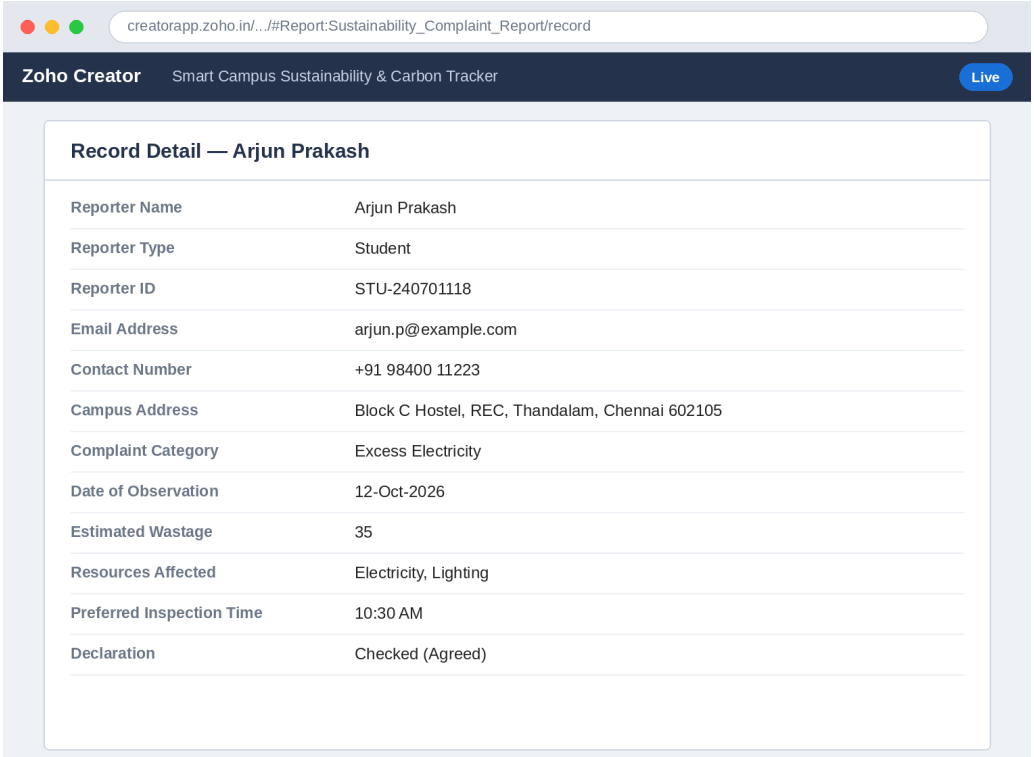

Fig 5. Detail view showing the complete submitted record (illustration).

RESULT

A functional Sustainability Complaint Request form was successfully designed and built in the Smart Campus Sustainability & Carbon Tracker application in Zoho Creator. The Sustainability_Complaint_Form uses all thirteen Basic Fields (Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, Drop Down, Radio, Multi Select and Checkbox) to capture reporter identity, contact details, complaint category, date of observation, wastage estimate, resources affected, a description and a declaration of authenticity. The configured validations worked as expected, and the generated Sustainability_Complaint_Report correctly displays the submitted complaints, enabling the facility team to filter, verify and assign them for inspection.
